

As athletes, we will take part in:

Brilliant Ball Skills

- Master basic sending and receiving skills. Use ball skills in game-based activities.

Gym Fit Circuits

- Identifying techniques to improve our balance. Sequencing and performing a range of gymnastic skills with increased accuracy.

As artists, we will develop skills in:

- Paper sculpture.
- Focusing on drawing with a purpose, using pens and pencils to create patterns.
- Looking closely at the tone of our patterns and using them to create a 3D Sculpture.

As computer scientists, we will learn about Data and Information.

- We will begin with labelling, matching, grouping and counting.
- Looking at describing and comparing groups.

As historians, we will learn about: History of Transport

- We will explore transport in living memory focusing on travel into space, by aeroplanes, cars and trains.
- Finally how transport has changed over time.

Year 1 Spring Term 2

2022-2023

Learning Overview for Parents

As scientists, we will be consolidating and reviewing our learning.

Plants

- Naming parts of a plant. Identifying deciduous trees and coniferous trees.

Seasonal changes

- Identifying seasonal changes based on living things.

Everyday Materials

- What is an object and its purpose.

In Phonics, we will focus on:

- Continuing Phase 5 from Little Wandle.
- Practising reviewing, writing, speaking and reading the daily sounds.
- Growing our code— learning alternative spellings for sounds.
- Reading our decodable books in our reading groups and at home.

As musicians, we will learn about pulse, rhythm and pitch in different styles of music:

Pulse and rhythm

- Tapping, clapping, stamping and to the beat.

Listen and Appraise

- Learn the lyrics to the song round and round.
- Take it in turns to improvise using C or C and D on the Glockenspiels.

As learners of religion, we will study:

What questions does the story of the creation make us ask?

- We will be looking at various questions and suggesting answers, based on a scientific explanation of creation.
- Does everything have a cause? Does everyone believe in God? What does science teach us about how the world began?

In P.S.H.E, we will focus on Being me in my world:

- Being healthy and making healthy choices.
- Keeping safe, road and medicine safety.
